

Bottle-Top Dispenser „Premium“

Bottle-Top Dispenser, is supplied complete with 3 adapters, intake tube FEP, Discharge-tube, closure cap, and certificate of performance.

- Fast, easy and precise volume setting
- Unique wiping seal eliminates swelling and freezing of piston. The positive displacement principle: The tightly fitting piston always wipes the walls of the glass-cylinder completely clean.
- Transparent plastic sleeve protects the user from cuts and splashes if the glass breaks
- Modular design and exemplary spare part service for extended lifetime
- Manufactured with high quality and durable materials.
- The parts of the dispenser which come into contact with the liquid are: PTFE, PFA, borosilicate glass, Platinum-iridium, FEP, ETFE and PVDF. Most liquids which do not attack these materials can be dispensed.
- Autoclavable at 121°C
- Made in Germany

Technical Data:

Article No.	Volume	Thread	Adapters	Increment	Inaccuracy	Imprecision
500-20025	0.25 - 2.5 ml	32	28/40/45	0.05 ml	± 0.6 %	0.1 %
500-05005	0.5 - 5.0 ml	32	28/40/45	0.10 ml	± 0.5 %	0.1 %
500-10010	1.0 - 10.0 ml	32	28/40/45	0.20 ml	± 0.5 %	0.1 %
500-25025	2.5 - 25.0 ml	45	40/38/32	0.50 ml	± 0.5 %	0.1 %
500-50050	5.0 - 50.0 ml	45	40/38/32	1.00 ml	± 0.5 %	0.1 %
