

Disposable Erlenmeyer Flasks, NALGENE®, IDL

Erlenmeyer flasks made of PETG, sterile

These shatter-proof, crystal clear, sterile disposable conical flasks are available in 4 different models. They have either a plain bottom or baffles inserted in the bottom. Additionally, the delivery includes pre-mounted fixed screw cap or a vented screw cap. The PETG-material offers unrivalled barrier properties compared with other plastic materials or glass.

Vol. ml	Version	Material	Order No.	PU pc/Pack
125	plain bottom, fixed screw cap	PETG	29 87 41121	24
