

Chromatography Columns, Rettberg

Chromatography columns made of borosilicate glass 3.3

With little dead space, with PTFE stopcock (bore 2.5 mm), with standard ground socket.

Version A with fused glass filter plate Por. O.

Version B with recess for inserting a swab.

Ground socket NS	Filling height approx. mm	Inner Ø ap- prox. mm	Version	
			A ① Order No.	B ② Order No.
