

Separatory Funnels, PTFE, NALGENE®, IDL

Separatory funnels made of PTFE FEP with PTFE TFE plug and Tefzel ETFE-screw closure. Shatterproof and transparent, non-stick for easy cleaning, non-wetting for complete draining. Can also be used with mechanical shakers. Leakproof closure and stopcock. Stopcock assembly is easily removed for cleaning, at which point the funnels can be sterilized in an autoclave.

Nominal volume ml	Cap Ø mm	Stem length mm	Order No.
125	28	65	23 87 43011
250	33	65	23 87 43012
500	43	65	23 87 43013
1000	53	65	23 87 43014
2000	53	65	23 87 43015

N.B.: Do not autoclave when closed! (Make sure the stopcock or closure is open).
Supplied without the illustrated accessories
