

Minisart® Syringe Filters, Sartorius Stedim Biotech

Syringe filters for a rapid sterile filtration of small volume liquids.

① Minisart® 0.2 µm cellulose acetate membrane filters

The ready-to-use units with high flow rates at low inlet pressure ensure accordingly quick sterile filtration. Fitted on a standard syringe, these units permit sterile filtration of volumes up to 100 ml without tiring your hand.

Article	Order No.	PU pc/Pack
individually, sterile packaged, Luer Lock	10 16 66534	50
individually, sterile packaged, Male Luer Lock	10 16 67597	50
non-sterile, Luer Lock	10 16 66535	500
non-sterile, Male Luer Lock	10 16 67598	500

Minisart® plus 0.2 µm cellulose acetate membrane filters, glass fiber filters

In addition, Minisart plus units have proven themselves during sterile filtration of liquids which are difficult to filter. Because they are equipped with an additional fine glass fiber pre-filter on the filter membrane, and this combination is so effective that the flow rate can often be doubled. Minisart plus units have proven themselves also during sterile filtration of liquids which are difficult to filter. Because they are equipped with an additional fine glass fiber pre-filter on the filter membrane, and this combination is so effective that the flow rate can often be doubled.

non-sterile, Luer Lock	10 16 67826	500

② Minisart® RC units with hydrophilic, solvent-resistant RC-membranes

Minisart RC are ready-to-use syringe filter units for simple, quick and reliable ultra-cleaning of small sample volumes for HPLC- or GC-analysis. We recommend Minisart RC4 for sample volumes of up to 5 ml and Minisart RC25 for volumes of up to ca. 100 ml. Compared to common hydrophilic units, the Minisart RC units especially stand out with their excellent compatibility with water-based solutions and solution mixtures.

Minisart® RC4

Article	Order No.	PU pc/Pack
Minisart® RC4 with 0.2 µm membrane	10 16 67821	50
Minisart® RC4 with 0.2 µm membrane	10 16 67824	500
Minisart® RC4 with 0.45 µm membrane	10 16 67822	50
Minisart® RC4 with 0.45 µm membrane	10 16 67825	500

Minisart® RC15

Article	Order No.	PU pc/Pack
Minisart® RC15 with 0.2 µm membrane	10 16 67761	50
Minisart® RC15 with 0.2 µm membrane, individually, sterile pack.	10 16 67760	50
Minisart® RC15 with 0.2 µm membrane	10 16 67763	500
Minisart® RC15 with 0.45 µm membrane	10 16 67762	50
Minisart® RC15 with 0.45 µm membrane	10 16 67766	500

Minisart® RC25

Article	Order No.	PU pc/Pack
Minisart® RC25 with 0.2 µm membrane	10 16 67764	50
Minisart® RC25 with 0.2 µm membrane, individually, sterile pack.	10 16 67768	50
Minisart® RC25 with 0.2 µm membrane	10 16 67767	500
Minisart® RC25 with 0.45 µm membrane	10 16 67765	50
Minisart® RC25 with 0.45 µm membrane	10 16 67769	500
