

UV Goggles super g, neoLab®

Extremely light protective eyewear with only 18 g!

The shields are extremely thin and very clear.

With aerodynamically optimised and tilted shield geometry for best venting.

Colour-less shields made of PC with supravision-coating, outside extremely scratch-proof, inside permanently fog-free. UV-protection 2-1,2 according to EN 166 + EN 170.

The frame in ultra-light design guarantees highest flexibility. Side frames with innovative technology for great fit. Excellent fit also for slimmer (womens') heads!
