

Freezing Container, Thermo Scientific Nalgene, IDL

Freezing containers MR. FROSTY made of polycarbonate with screw closure made of high-density polyethylene. For the controlled freezing of samples at a reproducible rate of $-1^{\circ}\text{C}/\text{min}$. Designed for a maximum of 18 tubes, hence ideal for freezing small quantities.

for tubes ml	Quantity	Ø mm	H mm	Order No.
1.2/2.0	18	117	86	23 87 51001
3.6	18	117	151	10 87 51036
4.5/5.0	18	117	151	10 87 51050
