

Drosophila Breeding Vials and Plugs, neoLab®

Drosophila Vials, Bottles and Plugs.

Vials are precision moulded from premium grade polystyrene. Disposable vials are a safe and cost-saving alternative to glass vials. Available in bag and tray pack. Dimensions: 28.5 × 95 mm.

Bottles made of stable polypropylene. Can be autoclaved and available in bags and trays. Volume: 177 ml

Plugs made of high density foam. Exact fit with vials (28.5 mm) and with bottles (177 ml).
